

## SILICONE DEFOAMER

### **Product Data:**

Product : WCI-SIDI  
HS Code : 34021110  
Origin : Silicone Emulsion

### **Specification:**

Appearance : White Viscous Fluid  
Chemical Nature : Silicone Emulsion  
Ionic Nature : Non-Ionic  
Specific Gravity : 0.98+/-0.01  
PH : 7-7.5  
Solid Content : 10%, 20%, 30% ± 0.5  
Stability : Stable with hard water, Acid & Alkali Condition  
Solubility : Dispersible in hard and soft water

### **Applications:**

- # Sugar Industries/Distilleries
- # Pigment
- # Polymer
- # Textile
- # Leather
- # Pharmaceuticals
- # Agrochemicals
- # Food Manufacturing Unit
- # Phosphoric Acid Manufacturing Unit
- # It's used as solving problem of Foaming in various Industries

### **Packing & Storage:**

- # 200 Kg HDPE Drum
- # The Material Should Store in Cool & Dry Place away from Sunlight.
